

BactiPak

Grease Digesting Bacterial Drain Treatment System

Each specially formulated BactiPak contains trillions of naturally occurring bacteria. These bacteria attack the grease chains and change it's composition, stopping it building up on pipe surfaces. Use BactiPak to treat smelly floor gullies, sinks and floor channels.

Step 1

10 Litres of
Warm Water

Step 2

Add BactiPak
sachet, mix and
wait 30 minutes

Step 3

Add to drain or
sink to
start treatment

- **Stops Grease Build-ups**
- **Targets Problem Areas**
- **Reduces Odours**
- **Cost Effective**
